

**TRIO CONSULTING**

*Cost Estimating*

## Trio Training delivers DAU certified training nationwide to meet *your* timelines.

**Cost Estimating** - Students learn the basic fundamental principles of cost estimation as applied to general project management practices. The course covers policies and regulations on cost estimates, life cycle cost composition, and the individual factors that make up each cost element. Students also learn the cost estimating techniques appropriate to each phase of a program and the information available. Finally, students learn to estimate costs throughout a program's planning, development, production, and operations phases.

Topics Covered:

- » Understanding the principals of cost estimation
- » How to implement the processes and integrate them with existing management processes
- » How cost estimates change through the program life cycle

Professionals supporting, executing or managing projects or programs that use a formal or informal cost estimating process should take this course.

This course can be delivered remotely at a customer's site when requested.

See our current class schedule at [www.trio-consulting.com](http://www.trio-consulting.com)

### Benefits of Choosing Trio Consulting:

- » DCO account not required to participate in the course

- » Students are in a classroom that diminishes interruptions by staff and managers encouraging more interaction
- » DCO-Blackboard explained in course material
